The international perspectives of the National institute of training teachers, INSPÉ de l' académie de Versailles are based on :

- **Mobility**

To improve education the INSPÉ encourages student and teacher mobility throughout Europe and the world and offers studies abroad, placements and internships.

- **International cooperation**

The INSPÉ implements a wide range of international missions and projects. In order to present the French education system and teacher training and to establish new collaboration the INSPÉ also hosts delegations.
